

Project Description

CTH I is used to move goods and services that support local agriculture, business, industry, recreation and residents in the surrounding communities of Marathon County. The pavement structure along CTH I had reached the end of its useful life. Becher Hoppe was contracted by the Wisconsin Department of Transportation to provide construction engineering services for a local force account, CTH I from CTH C to STH 153, Marathon County.

Project Features

- 3.5-mile rural highway rehabilitation
- Culvert installation
- Pulverize existing asphaltic pavement and placing a new HMA pavement overlay

Firm's Involvement

- Project coordination with WisDOT, Marathon County, and residents
- Nuclear density testing
- Aggregate sampling
- Quantity measurement
- Construction pay estimates and contract modifications
- Field Manager data entry
- Weekly updates to WisDOT
- Facilitate preconstruction meetings and weekly construction meetings
