

## Project Description

Becher Hoppe was contracted by the Wisconsin Department of Transportation to provide construction services for Project ID 1166-11-83, Stevens Point-Wausau, Maple Ridge Road Interchange, Old Highway 51 pavement replacement, IH 39, Marathon County. The goal of this project was to rehabilitate Old 51 before it is used as the detour route for the Maple Ridge Interchange project.

## Project Features

- 1.16-mile urban roadway within the City of Mosinee
- Milling existing asphaltic pavement, crack and seat existing concrete pavement, and placing new HMA pavement
- Beam guard installation and attachment to existing structure
- Super elevation correction using 1 ¼" base course

## Firm's Involvement

- Project coordination with WisDOT, City of Mosinee, contractor and residents
- General inspection and beam guard installation inspection
- Nuclear density testing
- Aggregate sampling
- Quantity measurement
- Construction pay estimates and contract modifications
- Field Manager data entry
- Weekly updates to WisDOT
- Facilitate preconstruction meetings and weekly construction meetings
- Provide cost analysis for City of Mosinee
